DIN 2501 (NP10); BS 4504 (NP10). Version PN16 (NP16) on request.

Note: Flow sensors with nominal diameters DN65- DN300 having an application in pressure reduction stations or compression stations are subjected to CE marking according to the Pressure Equipment Directive 97/23/EEC. Place of application of the ordered items shall be specified on an order form, as this may cause necessary CE marking to apply.

Example of an order:

flow sensor MWNI 30-65-NC

pulse value: 100dm³/imp (standard)

flange drilling according to PN-EN 1092-2 PN10

place of application: Compression station (CE marking required)
